I am a highly skilled software engineer with expertise in the latest programming languages such as Javascript, HTML, CSS, and Python. I am also proficient in popular frameworks like Reactjs, Bootstrap, and TailwindCSS. In addition, I possess in-depth knowledge of backend technologies such as ExpressJS, NodeJS, MongoDB, Mongoose, and MySQL. Furthermore, I have extensive experience in utilizing design software like Figma to enhance the user experience. As a hardworking individual, I am always punctual and reliable, and I value teamwork and collaboration. I am passionate about learning and improving my skills and welcome the opportunity to work with and learn from my mentors. Overall, I am confident that my technical expertise and positive work ethic make me an asset to any team.

EDUCATION

Bachelor of Science (B.S.) - Software Engineering

Jan 2018 - Jan 2022

United States International University - Africa, Nairobi

EXPERIENCE

Software Engineer Intern

Jan 2022 - Jun 2022

Microsoft 21st Century Skills Lab App-Factory, Nairobi

During my time as a software engineer intern, I had the opportunity to work on several exciting projects and gained valuable experience that has helped me develop my skills as a programmer. One of my major achievements was developing a web application using ReactJS that allowed users to easily manage and organize their tasks. I was responsible for developing the user interface and integrating it with the backend using NodeJS and MongoDB. Furthermore, I collaborated with other interns and team members to enhance existing software applications, including implementing new features and resolving bugs. This experience taught me the importance of effective communication and teamwork in software development. Overall, I am proud of the work I accomplished during my time as a software engineer intern and believe that it has prepared me for a successful career in the field.
